

# GUBERNA Institutional Membership

Based on our conviction that good governance leads to better organisations and that better organisations contribute to a better world, we offer personal governance assistance to our corporate members who wish to foster good governance.

Under the motto 'one size does not fit all', we align our membership formulas and the related personal governance assistance with the specific requirements of every organisation.

- » Would you like to receive personal governance support?
- » Do you wish to participate in exclusive events such as the CEO Platform and the Chairmen Platform where you can exchange experiences discretely with your peers?
- » Do you want to play a role in the strategic development of GUBERNA?
- » Would you like to offer your representatives the possibility to participate in the GUBERNA open certification programme at a membership rate?
- » Do you wish to give your organisation visibility within the GUBERNA network?
